

Lockheed Martin STEM Scholarship Program

The Lockheed Martin **STEM Scholarship Program** was launched in 2019 to expand access to pathways through education and into the STEM workforce for all students, particularly those with financial need and those from backgrounds historically underrepresented in STEM fields. The Scholarship seeks to support students pursuing four-year degrees and has awarded **596 total student recipients** to date.

University of Central Florida
University of Puerto Rico-Mayaguez
Virginia Tech

Scholar Perspectives

“By awarding me the scholarship, you have lightened my financial burden which allows me to focus more on the most important aspect of school: learning.”

“As a woman going into a tech-based career, I want to inspire more young girls to pursue careers in STEM through my work, and I am now one step closer to that goal. Thank you again for your investment in students like me and our education!”
